

2016

АВГУСТ

HELLO AND WELCOME TO THE 2016 AVID CARP CATALOGUE

What a year it's been! As you'll see over the coming pages, we've been very busy! With a wide range of additions that we believe reinforce our position as a fast-growing carp brand, 2016 is set to be a massive year.

We believe that this year's range of products includes numerous items that carp anglers everywhere simply won't be able to take their eyes off – product that lives up to the demand we endeavour to create every day with our strategic multimedia and marketing projects.

In these pages you will find new **Bivvies**, new **luggage**, new **chairs**, **beds** and **rods** that have that iconic Avid Carp touch. You'll notice our emphasis has switched to the larger, must-have capital items that carp anglers everywhere have such high demands for. With products like the **Benchmark beds**, the **HQ Twin Skin MKII Bivvies** and **Tuned® Luggage**, we are producing tackle of the very highest quality, offering affordable luxury that's just as functional as it is beautiful.

For us, 2016 is a new year with massive opportunities. Armed with exciting new products, armed with an online and on-page marketing clout that puts other larger brands to shame, Avid Carp can realise its potential and so much more.

So join us in taking things forward. Join us, as we continue to take Avid Carp to The Next Level.

HQ TWIN SKIN BIVVY MKII - 1 MAN

The most feature packed bivvy on the market just got better! The first ever bivvy to feature a built in twin-skin as standard now boasts a new internal layout and a stylish rain peak, designed to keep the elements at bay better than ever before.

The clip-in inner wrap totally eradicates the need for a winter skin and completely eliminates condensation. Once installed, it need never be removed. The inner wrap is not attached to the heavy-duty clip-in groundsheet, so it can be left in place all-year round.

The HQ has a unique separated pole layout which provides improved stability and greater floor space. It will easily accommodate a large bedchair and all the tackle that you could possibly need for a long stint on the bank.

The 10,000 waterproof and breathable material is of the highest standards, with a soft brush finish that gives the HQ its distinctive look. The material is completely storm proof, boasts taped seams and has been tested in wind, snow, rain and intense sunlight. It's never let any of our anglers down.

When creating the bivvy, we concluded that it was the little things that often made a big difference. So, in a bid to give you more, we included a rear vent that can be opened from the inside, a colour coded groundsheet for easy installation and two rod-retention bars that when placed on the side of the HQ, give you somewhere perfect to rest your marker, spod or any other spare rods.

In short, it's the bivvy that sets a new benchmark. Check out all of the features and make your own mind up. We know you'll see the light!

UNIQUE FEATURES INCLUDE:

- 10,000mm Waterproof and Breathable Outer Skin
- Twin Skin Technology as standard
- Built-in Inner Skin for the most breathable setup
- Extended storm peak to protect you from wind and rain
- Separated pole layout for increased space
- New pegging loops that are reinforced and adjustable
- Pole tensioning straps to make the bivvy taut when erect
- Rear vent with mosquito panel and full panel that can zippered from inside the HQ bivvy
- Zip-off front panel. Two way zips so it can be completely removed
- Front door and windows feature mosquito panels behind the outer waterproof fabric
- Letter-box style opening option
- Colour coded tension straps that run parallel inside the bivvy
- Colour coded clip-in groundsheet for easy installation.
- 3 x Tension bars that are totally adjustable
- 2 x Rod Retention bars for more stability and somewhere to put your fishing rods
- Extra large carry bag with internal tension points for ultra-compact bivvy storage
- Heavy duty bivvy pegs

CODE	DESCRIPTION
AVBIV/02	HQ MKII 1 Man

**HQ TWIN SKIN BIVVY MKII - 2 MAN**

For longer sessions, it doesn't get any more luxurious than the stunning 2 Man HQ Twin Skin bivvy. The MKII version features a stylish storm peak, extending the already generous coverage area even further. With the same Twin Skin Technology as a 1 Man HQ, this spacious bivvy offers loads of internal space, almost like a 2.5man bivvy, thanks to the spreading out of the poles at the sides. This increases the useable internal space massively, giving you more room than any other three-rib 2 Man.

The inner wrap only needs to be clipped in once and removes the need for a winter skin. As both the internal and external materials are fully breathable and waterproof to 10,000mm, the material resists condensation, making the bivvy cooler in the summer and warmer in the winter.

The soft brush finish to the external material gives the HQ its iconic look. It's totally storm proof, boasts taped seams and has been tested in all conditions. It's never let any of our anglers down, many of whom are doing 5 nights a week, every week of the year.

Included in the HQ bivvy is a rear vent that can be opened from the inside, and like the front boasts a mosquito panel layer. The colour coded groundsheet makes installation easy and two rod-retention bars add stability, as well as giving you somewhere to rest your rods when not in use. It's an unbelievable bivvy that for longer sessions, trips abroad, or just when you want to take all the creature comforts of home, is totally unrivalled.

UNIQUE FEATURES INCLUDE:

- 10,000mm Waterproof and Breathable Outer Skin
- Twin Skin Technology as standard
- Built-in Inner Skin for the most breathable setup
- Extended storm peak to protect you from wind and rain
- Separated pole layout for increased space
- New pegging loops that are reinforced and adjustable
- Pole tensioning straps to make the bivvy taut when erect
- Rear vent with mosquito panel and full panel that can zip off from inside the HQ bivvy
- Zip-off front panel. Two way zips so it can be completely removed
- Front door and windows feature mosquito panels behind the outer waterproof fabric
- Letter-box style opening option
- Colour coded tension straps that run parallel inside the bivvy
- Colour coded clip-in groundsheet for easy installation.
- 3 x Tension bars that are totally adjustable
- 2 x Rod Retention bars for more stability and somewhere to put your fishing rods
- Extra large carry bag with internal tension points for ultra-compact bivvy storage

TARDIS BIVVY

The Tardis® Bivvy provides the perfect marriage between something that is compact on the outside, but spacious on the inside. Why sacrifice all creature comforts, when you can use a bivvy that provides something perfect for the dedicated angler travelling light and fishing tight swims. The Tardis® bivvy uses a 2-rib design to keep the weight down, but spacing out the poles makes the bivvy more spacious than traditional pramhood alternatives on the inside.

Uses soft feel 10,000mm waterproof and breathable fabric for maximum protection from the elements. Perfect for the hardcore angler who demands great quality in a more compact form.

FEATURES:

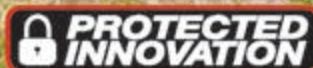

- Fully removable front with mosquito panel door.
- 2 Rib System that saves weight
- 4 Break pole system that makes it quicker to put up and take down

ANGLERS CAN STAND UP IN THE TALLEST PART OF THE HIGH TOP.

THE BIVVY HAS A HUGE REAR VENT TO IMPROVE AIR CIRCULATION

HQ TWO MAN HIGH TOP

- Front section of bivvy high enough to stand up in
- Supplied with inner wrap and over wrap
- Separated pole lay out
- Rear vent
- Zip-off front panel
- Colour coded straps
- 3x tension bars
- Triple skin construction

The HQ Two Man High Top has been designed to cater for anglers that are looking for a shelter with plenty of headroom. Due to a unique raised front section, the High Top has enough space to allow most anglers to stand up inside. This means you can walk in, walk out and stand up watching the water without having to crouch.

The High Top doesn't just benefit from height, it's a two man shelter that's wide enough to accommodate two large bedchairs. The High Top comes supplied with a clip-in inner, as well as an over wrap, creating a triple-skin construction that will offer unrivalled protection all-year round.

BOASTS TWO ROD STRAPS

HEAVY DUTY PEGGING POINTS

ASCENT BROLLY SYSTEM

- Increased headroom
- Inner skin
- Curved peak tension bar
- Built in stability rods
- Lightweight fibreglass poles and tough Dura-Stop material
- 1x full zip-in front with PVC panel and mozzie mesh
- 1x full mozzie mesh front with full-length zip
- Comes with 2x storm poles
- Complete with heavy-duty groundsheet and pegs

A totally freestanding brolly system that boasts a whole host of great features. It benefits from increased headroom and is supplied with an inner skin that can be left in place all-year round. The system can be packed away with the built-in skin in place so there's no need to ever take it out.

As well as reducing condensation, the skin also creates a layer of cool air inside the shelter, which makes the system comfortable to use during the warmer months. Made from the ultra-tough Dura-Stop material for maximum protection, the system can be used like a conventional stripped-out brolly, with or without a full mozzie mesh front, or you can make the most of the full zip-in front if you require more protection.

SCREEN HOUSE

- Easy to erect
- Full mozzie mesh
- Full-length zips on all four sides
- Supplied with groundsheet and pegs

After speaking to our strong team of European consultants about fishing on the Continent, it quickly became apparent that lots of European anglers, and anglers from the UK visiting the Continent, were using gazebo-style shelters to cook and socialise in on long sessions.

Knowing that most anglers were purchasing gazebos that were made for the camping market, in a whole host of bright colours, we decided to design a shelter specifically

with carp anglers in mind. The Screen House is easy to erect, boasts a full mozzie mesh and has full-length zips on all four sides.

We're certain the Screen House is going to find favour with anglers who fish on the Continent, or carp anglers in the UK who want somewhere to cook and socialise with friends on longer sessions.

**PROTECTED
INNOVATION**
**new****ROCK-STEADY™ LEGS****MEGABITE BED**

The Avid Carp Megabite offers a generously padded bedchair with a totally flat profile, perfect for the angler wanting a simple, comfortable bed. The understated matt paint finish and carpy olive green fabrics give it a great look to match its top performance.

The Megabite is quick and easy to use, just unfold the bed and secure with the handwheel. Features a super-comfortable fleece mattress with plenty of padding and a hard-wearing canvas outer.

The traditional three-leg design offers six points of support, giving you a great night's sleep.

The individually adjustable legs feature our protected ROCK-STEADY™ system, which does away with the ugly lever systems used on other chairs. This innovative system prevents the internal extendable leg from rocking – a big issue with standard setups. It also hides the

mechanism, giving a much sleeker and professional look. Each ROCK-STEADY™ leg has its own non-slip mud foot, which hinges to find the perfect level every time, giving you maximum stability.

FEATURES

- Totally flat profile
- Tapered frame layout
- Easy lock adjustable legs
- Lateral sleep system design
- Rapid folding mechanism
- Three legs for even weight distribution
- ROCK-STEADY™ leg locking system
- Size 81cm x 208cm

**BENCHMARK BEDS**

The Avid Carp Benchmark beds set a new standard in comfort for fishing bedchairs. It features our new Lumbar Region Support system, underneath a one-piece Memory Foam mattress that is over 2" thick!

No other mattress on the market comes close to Memory Foam in terms of comfort and quality making this carp fishing bedchair the one to buy. Avid Carp continues to set the bar with this technology.

Both the Benchmark and Benchmark X feature two reinforced steel Throw-Hinges that allow you to pack your sleeping bag away inside the bed. This helps offer a totally flat surface, which offers maximum comfort. A strong Security Strap is used to secure the bed in transit and four legs offer eight supporting positions, giving you even weight distribution and a great night's sleep.

The individually adjustable legs feature our protected ROCK-STEADY™ system, which does away with the ugly lever systems used on other chairs. This innovative system prevents the internal extendable leg from rocking – a big issue with standard setups. It also hides the mechanism, giving a much sleeker and professional look. new

MEM:X ONE-PIECE DESIGN

Our specially designed MEM:X Foam is the perfect option for bed chairs, providing maximum comfort. The one-piece design makes the useable surface area of the bed larger than ever, meaning even the standard Benchmark offers more comfort than any other similarly sized bed.

LUMBAR REGION SUPPORT SYSTEM

Rather than a typical elastic-wound mattress, only wrapped around the outside, our special system supports the canvas underneath as well as around the edges. This prevents sagging and enables you to enjoy all of the comfort offered by the one-piece MEM:X Foam mattress.

LATERAL SLEEP SYSTEM DESIGN

This bed is totally flat, meaning it's just like your bed at home. If your bed was made from memory foam, of course. This provides the perfect platform for a great night's sleep.

RAPID FOLDING MECHANISM

Throw hinges rather than hand wheels give more room for the mattress and more room to pack away sleeping bags inside the bed chair. A simple security clip and strap secures the Benchmark in transit.

IMPROVED WEIGHT DISTRIBUTION

All four legs of the Benchmark have been strategically placed to provide even weight distribution for increased levels of comfort.

ANY CHAIR TABLE

- Supplied with Any Chair Adaptor
- Generous recess

Can be attached to most brands of table or bedchair. It can be detached in seconds and boasts a large recess to accommodate the tackle bits you need close to hand.

3+2 ROD HOLDALL

This holdall features a staggered internal compartment that allows you to hold three made up rods and reels in the padded inner compartment without the reels bunching together. There is also room for two rods on the quiver style pockets on the outside of the bag. This allows the angler to store their spod and marker rod, and three carp rods set up or convert it to a 3 rod for a shorter session with ease.

- Staggered internal compartment so your reels are not bunched together like in other similar holdalls
- Will hold 3 rods with reels made up in the padded internal compartment
- Quiver style pockets on the outside of the bag for 2 more rods
- Padded adjustable shoulder strap
- Outer pockets for landing nets and banksticks
- Made from luxury quality 600 denier material

TRADE QUANTITY: 1

CODE	DESCRIPTION
AVLUG/36	3 + 2 Rod Holdall

new

5+ ROD HOLDALL

Perfect for anglers using expensive gear they want to protect well or for anglers travelling overseas that need to go fully prepared. This full protection holdall will hold five made up rods in the inner compartment plus three unmade rods on the opposite side. The holdall will also hold two rods on the quiver-style pockets on the outside of the bag. This allows anglers to take up to seven made up rods if they want, making it ideal for people who want to carry extra rods, like floater and stalking setups, in their holdall.

- Takes five made up rods, plus three unmade rods in the main compartment
- Two external quiver-style pockets to hold two further rods on the outside of the bag
- Two outer pockets to accommodate nets and banksticks
- Padded shoulder strap for maximum comfort
- Two carry handles for easy transport in and out of your car or barrow
- Made from luxury quality 600 denier material

DAY SESSION KIT

This lightweight combination allows you to carry your chair and bag as one, then use a simple two-rod sling to carry your rods and reels. The perfect combination for day session anglers travelling light.

TRADE QUANTITY: 1

CODE	DESCRIPTION
AVLUG/49	Day Session Kit

CONTAINS

RUCKBAG

The first dedicated carp rucksack that allows you to carry lightweight chairs on your back at the same time. This brilliantly functional bag is easy to carry and features the same sizing as our carryalls, to provide the ideal bag for keeping organised on the bank.

FEATURES

- Fully padded walls for added protection
- Two attachment hooks for securing a chair to the bag during transit
- Two large outer pockets compatible with Tuned™ pouches, accessory bags and Avid
- Carp Bait & Bits Tubs
- Padded shoulder straps
- D ring loops for attaching unhooking mats to the bag
- Made from luxury quality 600 denier material

35CM X 48CM X 25CM

TWO ROD SLING

This lightweight and compact sling takes two made up rods and big pit reels with ease. Shaped to accept 50mm butt ring rods, it comes with an adjustable shoulder strap for maximum comfort.

FEATURES

- Fully padded interior that accepts two made up rods and reels
- Adjustable padded shoulder strap
- Made from premium quality 600d material
- 200cm x 30cm x 19cm

DAY CHAIR

A lightweight chair with hooped legs that's comfortable and stable. Perfect for day session fishing.

FEATURES

- Padded seat cover made from premium quality 600d material
- Lightweight aluminium frame
- Locking pins for maximum stability
- 48cm x 43cm x 60cm
- 3kg weight

**SAFEGUARD**

- Collapsible frame that folds shut to provide a compact package for transport
- Fully padded exterior and interior for increased fish protection
- Made from a fish-friendly material
- Boasts mesh centre for better water drainage
- Cover flap to temporarily secure fish
- Complete with carry bag

We've produced two collapsible-framed unhooking mats that can be erected in seconds. They are strong, extremely padded and keep fish away from the ground at all times.

TRACTION RODS

All Avid Carp Traction rods boast a new Reactive carbon fibre technology, wrapped in matt 3k weave, that enables us to offer a unique take on a traditional 'parabolic' action. This enables anglers to deliver a slower power build up for casting, offering distance gains with minimal effort.

Reactive carbon also helps absorb the lunges of fighting fish better than other rods, giving the angler more control when it really matters.

This careful blend of technologies provides the perfect action for modern carp fishing.

12' 3LB TRACTION

Boasting our unique Reactive carbon and 3k weave, the 12ft 3lb rod boasts the same beautiful action as the rest of the Traction range. This rod provides a perfect blend of progressive power with a responsive action for maximum control when it matters. It has plenty in reserve for longer casts, aided by the 50mm butt ring, but its primary purpose is for playing big fish with the perfect curve.

- 3k weave with high quality matt finish
- Reactive parabolic carbon technology
- Matt black guides with 50mm butt ring
- Full length Japanese Shrink Wrap handle
- 18mm Supa-lite reel seat
- Laser engraved butt cap
- Tapered line clip

12' 5LB TRACTION SPOD ROD

Compression is everything when it comes to spodding, and in the modern era of larger and heavier baiting devices, we believe the Traction Spod Rod offers the perfect action for the majority of anglers. The Reactive carbon used across the range extends the period of time it takes to fully compress the rod, meaning anglers can cast large weights repeatedly without issue. At 5lb strength it will handle weights up to 8oz with ease, but remains easy to compress.

- 3k weave butt with high quality matt finish
- Reactive parabolic carbon technology
- Matt black guides with 50mm butt ring
- Full length Japanese Shrink Wrap handle
- 18mm Supa-lite reel seat
- Laser engraved butt cap
- Perfect for all modern baiting devices

12' 3.5LB TRACTION MARKER ROD

Accuracy is everything when it comes to feature finding and having a rod that is easy to cast with and read the lakebed with is essential. The 3.5lb test curve is ideally matched to the leads most anglers use for feature finding, whilst the Reactive carbon used across the Traction range enables long, accurate casts, whilst retaining tip stiffness for better registration of the features below the water. Comes complete with 6" and 12" markers on the blank, for maximum usability.

- 3k weave with high quality matt finish
- Reactive parabolic carbon technology
- Matt black guides with 50mm butt ring
- Full length Japanese Shrink Wrap handle
- 18mm Supa-lite reel seat
- Laser engraved butt cap
- 6" and 12" depth markers

MSX 2.75LB

- Hand built
- Built on a top-quality carbon blank
- 50mm butt ring
- Full Duplon handle

An incredible all-rounder, this 2.75lb rod is built on the highest specification carbon available, therefore producing a rod that's at the forefront of modern technology.

Sporting a 50mm butt ring and a full Duplon handle, the rod has the ascetics you would expect to find on a top of the range custom built rod. In a nutshell, this outstanding hand-built rod has all the backbone required for casting at range, but also features a superb playing action with plenty of feedback through the blank.

MSX 3.25LB

- Hand built
- Built on a top-quality carbon blank
- 50mm butt ring
- Full Duplon handle

Boasting considerably more power than the 2.75lb MSX, this incredible rod has been built on the highest specification carbon available, producing a rod that is certain to help you cast further. Although the super-strong rod has plenty of grunt for chucking big PVA bags and large leads, it also has a beautifully forgiving action that eliminates hook pulls when battling fish at close range. The stunning hand-built rod boasts a 50mm butt ring, full Duplon handle and the kind of aesthetics you would expect to find on a custom built rod.

**TORAY CARBON FIBRE**

Toray carbon is widely considered the best available globally. It is a high-tensile strength modulus carbon fibre engineered by nanotechnologists to provide the optimum balance of strength, speed and lightness. It is used in satellites, racing cars, racing bikes and aeronautics. You'll find Toray fibre used on the wings of a Boeing Airbus, so it's the perfect addition to any fishing rod.

FREQUENCY MEASURED

Each rod is matched on a Frequency machine, which measures how quickly the rod recovers to a stable position after a long cast. The fast-action Toray material offers maximum recovery of the blank following compression.

LOW KICK POINT

The DSK has a powerful parabolic action, which means under full compression the whole blank kicks back with full force upon release of the lead. There is a definite kick point in the butt that will help the angler cast their rig much further when the rod is compressed correctly.

EXTENDED MOI (MOMENT OF INERTIA)

The MOI balance in the DSK comes later in the cast, designed to suit the most powerful casting techniques. The MOI comes later in the cast, to maximise blank recovery.

RAPID ENERGY TRANSFER

Because of how the butt of the rod is built it means all energy used by the angler through his hands will result in a faster transfer of energy through the blank. It means those anglers with a poor technique but lots of grit and determination will still see great results.

The DSK is a true casting tool. Featuring a unique blend of 46 ton and 30 ton carbon made with the finest Toray pre-preg materials. The combination of materials gives the DSK our signature action.

Fuji K Series rod guides – with 50mm butt ring – are used to increase casting distances and reduce frap ups. The DSK comes with a BDPS Fuji reel seat – the first choice for many custom built rods.

The 1k weave carbon wrap gives the rod a look that matches its distinctive hand-built finish. The abbreviated Japanese shrink wrap handle saves weight and helps increase casting distances.

DSK 12' & 13'

Available in 12' and 13' the DSK rods are designed for fishing at extreme range. Built on the finest carbon available and boasting top-quality Fuji K Series rings to eliminate frap ups, these rods are at the forefront of rod technology. They are super-strong, incredibly reliable and, with a little practice, there's no reason why you won't be achieving distances you've never cast before. Boasting an abbreviated handle, 50mm butt ring and understated graphics, these rods are sure to find favour with anglers than want to achieve all new distances. They really are beasts!

TRAP LINE

- Super strong
- Excellent knot strength
- Great casting capabilities
- Low memory
- Fast sinking
- Minimal stretch

Trap Line is a great all-round monofilament main line that has been designed with strength in mind. The Avid Carp team has developed a line that's strong, reliable and has great knot strength. Although it's extremely tough and hard wearing, the line is still super soft and supple. Boasting low diameters even in the higher breaking strains, it casts well and is brilliant for fishing at range. As soon as the line is cast out, it sinks quickly and becomes virtually invisible.

TRADE QUANTITY: 1

AVTLM/15	15lb
AVTLM/18	18lb

8LB, 10LB, 12LB

ZIG LINE

- Features two-tone technology
- Super smooth hooklength material
- Powerful knot strength
- Kink resistant

Designed to break up the outline of your Zig Rig to make it harder for the carp to detect. Boasts incredible knot and linear strength, perfect for the rigours of modern day carp fishing.

**DEPTH GAUGE MARKER BRAID**

■ Specifically-designed marker braid

■ Low diameter

■ Has black marks every foot

Designed specifically for feature finding, this unique yellow marker braid is marked with black lines exactly every foot (12in/30cm). As well as making plumbing the depth extremely easier when releasing line from your spool, the black lines on the Depth Gauge also allow you to mark and clip up your fishing rods extremely accurately using the Avid Yard Sticks and other distance sticks when you've found a feature using your marker rod.

PINDOWN HOOKLINK

- Super supple
- Strong

This hooklink material is super-supple, heavy and abrasion resistant. Like the popular PinDown leader material, it's fast sinking and virtually disappears on the bottom. There's no need to add putty to sink it and it hugs every contour on the lake bed. Due to the low diameter of the material, you don't need to splice it and you can tie knots in it like conventional hooklinks.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVPDH/GC20	Gravel/Clay - 10m - 20lb/9.1kg

METHOD FEEDERS

- Quick-change design
- Lockable insert
- Subtle flatbed design
- Each pack contains two feeders
- Small Method Feeders compatible with Small Avid Method Mould
- Large Method Feeders compatible with Large Avid Method Mould

The Flatbed Method Feeders allow you to present a parcel of bait with your hookbait inside. Due to the unique quick-change design, you can change the size and weight of the feeder you are using in a matter of seconds. You can even create a drop-off presentation with the feeder if you want to eject it when targeting carp on weedy venues.

To aid casting, the Flatbed Method feeders have a weighted nose and an aerodynamic design. The Feeders have a low profile and are finished in a subtle colour, so they are extremely inconspicuous on the bottom.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVMF/1.5	Small - 1.5oz/42.5g
AVMF/2.0	Small - 2oz/56.7g
AVMF/2.5	Large - 2.5oz/70.9g

METHOD FEEDER MOULDS

- Unique push-button design
- Small Method Feeder Moulds compatible with Small Avid Method Feeders
- Large Method Feeder Moulds compatible with Small Avid Method Feeders

Designed to be used in conjunction with the Avid Flatbed Feeders, these Method Moulds feature a unique push-button design. The Moulds allow you to perfectly load feeders full of groundbait or pellets super-compact and the same size every time, which makes casting accurately much easier.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVMFM/S	Small
AVMFM/L	Large

HOW TO... LOAD A FLATBED FEEDER

01 Add a thin layer of prepared pellets to the Method Mould.

02 Now place your chosen hookbait and rig inside the Mould.

03 Fill the feeder to the brim with more pellets.

04 Carefully push the feeder into the Mould like this.

05 Turn the Mould upside down and press the quick-release button.

06 The loaded Method feeder should look like this.

- STICKY SHARP
- EXTREMELY STRONG
- NON-GLARE GREEN FINISH
- 12 PER PACK

LSK

Ideal for a whole host of presentations, this longshank pattern boasts a straight point and a straight eye. Due to the length of the shank, it can be used for a variety of different presentations but performs well with blow-back rigs and other anti-eject presentations.

TRADE QUANTITY: 5

CODE	DESCRIPTION

TRANSFER PVA TAPE

- PVA dissolves after only a few minutes
- Leaves no residue
- 20m length
- 10mm width

Made from the same high quality PVA as the Transfer PVA bags, the tape has been designed to dissolve at the same rate, leaving no residue so as not to spook any wary fish, and helps the angler produce the perfect bait presentation.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVTSPT	Spare Transfer PVA Tape

TRANSFER BAG LOADING KIT

- 20 Transfer Solid PVA bags
- 10m Transfer PVA Tape
- Avid Bag Loader

It has all you need to make the very best of PVA solid bags: an Avid Bag Loader, 20 Transfer PVA bags and 10 metres of Transfer PVA Tape.

TRADE QUANTITY: 5

CODE	DESCRIPTION

AVTBLK/L	PVA Bag Loading Kit - Large

PVA REFILLS

■ 5m refills

These refills are on handy button spools that fit inside your tackle box. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVPVA/PSR	PVA Pocket Stick System Refill
AVPVA/WLR	PVA Wide Load System Refill

HOW TO...

MAKE A PVA STICK

01 After following the mixing instructions on the bag, load your PVA funnel with stick mix

02 Squeeze the bait tightly into the PVA using the plunger

03 Ensure the contents of the bag is compact and twist the PVA at the top of the stick

04 Tie two overhand knots in the PVA next to each other

05 Using a sharp pair of scissors, snip between the two knots

06 Finally thread your hooklink through the middle of the stick and push your hook into the end

WIDE LOAD SYSTEM

■ Built in scoop

The Avid Wide Load System contains everything you need to construct PVA bags and sticks. The bait tube has a built-in scoop that makes loading bait easier than ever before. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVPVA/WLS	PVA Wide Load System

POCKET STICK SYSTEM

■ Ergonomic finger grip

■ Built-in scoop

The Avid Pocket Stick System contains everything you need to construct PVA bags and sticks. The bait tube has a built-in scoop and an ergonomic finger grip similar to a syringe. The anti-ladder micromesh PVA melts quickly all-year round and allows you to use small baits like maggots, pellets and groundbait.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVPVA/PSS	PVA Pocket Stick System

ZIGS

READY TIED ZIG RIGS

These zig rigs are tied using 11lb monofilament which has an incredibly low diameter of 0.26mm, yet is still strong enough to perform well under pressure. They are tied using a size 10 WDG hook which has a Zig Grub slide onto the eye to improve hooking potential and add visual attraction. Knowing that yellow and black are two of the most popular colours for fishing in the upper layers, there's a Black/Yellow Zig Lite already attached to the rig.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVZR/01	8ft Barbed
AVZR/02	8ft Barbless
AVZR/03	10ft Barbed
AVZR/04	10ft Barbless

SUPPLIED WITH 10 CLIPS AND SWIVELS

ZIG CLIPS

Possibly the safest leadclips on the market. A unique plastic tag system on the barrel means you can whip PVA tape around the clip and merely pinch it under the tag to secure it. This means you can use the clip without a Tail Rubber when required, perfect for zig fishing or fishing in heavy weed.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVA/16	Zig Clips

ZIG BOX

- Boasts eight specifically designed zig spools
- Supplied with 32 spare spool stickers
- Spools supplied in compact i-design UK box.
- Box has a 12in ruler for measuring Zigs
- Holds 16 made up Zig rigs

The ultimate zig rig storage solution. This compact i-design box is supplied with eight zig spools that will each hold at least two made up zig rigs. The spools boast specifically designed sliders that allow you to conveniently store zigs of all lengths.

TRADE QUANTITY: 4

CODE	DESCRIPTION
AVZB	Zig Box

ZIGS

ZIG GRUBS

- Can be used for a variety of presentations
 - Feature a pre-drilled hole that will grip most hooks
- Designed to be used in conjunction with zig rigs, these Grubs boast a pre-drilled hole so you can thread them up your hooklink and over the eye of most hooks. As well as adding visual attraction, they also improve the hooking potential of the rig.

 10 PER PACK (5 BLACK, 5 YELLOW)

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVA/52	Zig Grubs

ZIG LITES

- Perfect for all your Zig rig fishing needs
 - Maximum visual appeal colours
 - More buoyant than rubber or plastic baits
- Made from an ultra buoyant material and a highly visual colour compound they are the perfect product for a multitude of fishing set-ups. Available in barrel shapes and round two-tone varieties, you've got all the best options for fishing up in the water.

TRADE QUANTITY: 5

CODE	DESCRIPTION

AVL/01	8lb
AVL/02	10lb
AVL/03	12lb

YARD STICKS

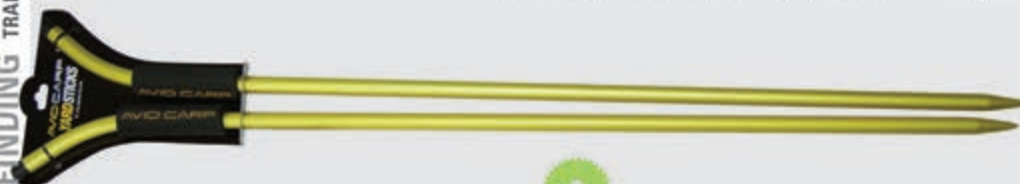

- Unique curved design
- Supplied with 12ft cord with toggles

Make fishing accurately easier than ever before. They are designed so you can mark-up your fishing rods and spod rod super-accurately after you've found an area with your marker rod. Complete with 12ft cord for setting out accurately, there are colour-coded toggle

stops that enable you to mark three different spots.

TRADE QUANTITY: 2

CODE	DESCRIPTION
AVYS	Yard Sticks

OVERNIGHTER YARD STICKS

A lightweight, compact version of our popular Yard Stick design, featuring glow-in-the-dark tops and a stealthy black finish. The sticks are supplied with a 12ft cord so you can set them up quickly and easily on the bank. The cord has three coloured toggle stops that give you the option to mark three different spots. The Yard Sticks have a unique curve at the top that ensures the line comes off in an easy controlled manner.

TRADE QUANTITY: 2

CODE	DESCRIPTION
AVYS2	Overnighter Yard Sticks

CAMO BUCKETS

Available in 10L and 17L, these handy camo buckets are compatible with the Avid Bucket Stand.

The square shape makes life easy when loading your car and your barrow. Finished in an understated, dull, dark olive green and featuring the Avid Carp logo in our iconic camouflage pattern.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVB/01	10 litres
AVB/02	17 litres

SQUARE BUCKET STAND

An innovative solution designed to speed up the baiting-up process. Whether spodding, catapulting or using a throwing stick, the Square Bucket Stand puts the bucket right at waist height, making it easier than ever to bait-up. The Stand also features a dedicated foam rod rest, as many baiting tools require you to put your rod down whilst loading bait. Fits all sizes of Avid Carp Square Buckets and many other popular brands.

Comes complete with three banksticks.
INTERNAL DIMENSIONS: 27.5 X 23.5CM
HEIGHT WHEN ASSEMBLED: 77CM

TRADE QUANTITY: 2

CODE	DESCRIPTION
AVB/03	Square Bucket Stand

RE-TENSION BARS

- Two per pack
- Drawstring carry bag
- Fits poles of 20mm or less

So long as the pole diameters are 20mm or less, the Re-tension Bar can be incorporated into your bivvy setup. No more leaning rods against your bivvy or trees, just lean your rods against the padded rod support bar, then secure with the velcro tab. These easy to use adjustable bars simply clip between the two front ribs of your bivvy pole, this provides a secure rod support, extra stability and added tension.

TRADE QUANTITY: 1

CODE	DESCRIPTION
AVRPRSB	Re-tension Bars

MARKER FLOAT

- Durable and super buoyant
- Aerodynamic float

It's durable and made from a super buoyant material so it will rise to the surface effortlessly. By separating the flights from the body and shaping it similar to a dart, this aerodynamic float will fly straight every time. It is finished in a hi-viz orange colour so it is visible at range.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVMF	Marker Float

MARKER LEADS

- Aerodynamic body, casts straight and true every time
 - Unique grooves transmit more information
- Boasting unique grooves, they transmit more information through the rod tip than a standard lead and gather debris from the bottom. They have a solid stem which gives a more accurate reading in weed. The swivel on the stem is positioned away from the lead so the float will always rise even if the lead is covered in debris.

PACK CONTAINS ONE 30Z LEAD AND ONE 40Z LEAD.

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVMLD	Marker Leads

MARKER FLOAT KIT

Contains everything you need to start feature finding. The products in the kit have been designed and developed to work together, and will allow you to find out exactly what the lake bed in front of you is like.
CONTAINS 1X MARKER FLOAT, 1X 30Z MARKER LEAD, 1X 40Z MARKER LEAD, 2X BUFFER BEADS

TRADE QUANTITY: 5

CODE	DESCRIPTION
AVMFKIT	Marker Float Kit

AIR RANGE SPODS

- Hinge arm system
- Easy loading, super-strong construction
- Mega buoyant nose cone
- Super-strong construction
- Aerodynamic shape with large fins

Our unique means of attaching the spod to the main line means you can scoop up bait without the problems of mono tails getting stuck in your spod mix. The flexible arm makes retrieval of the spod more angler friendly, creating very little disturbance on the surface and a much easier line pick-up.

The arm simply hinges upwards, taking the top half of the spod with it preventing unwanted drag through the water.

AIR CAGE

ILLUMINATED POLE MARKER

KIT INCLUDES:

- 6 x 100cm tubes
- 2 x 50cm tubes
- 1 x 20cm tubes (with reflective strip)
- 1 x Red LED Spot Marker (requires 2 x AAA batteries - not included)
- 1 x Green LED Spot Marker (requires 2 x AAA batteries - not included)
- 1 x 1.5kg Lead
- 8 x Anti-Snag Rings
- 1 x Lead Base Cover which eliminates tangles (not pictured)

The Illuminated Pole Marker enables you to temporarily mark the area you're fishing so that you can introduce bait and drop rigs with pin-point accuracy. The Marker is supplied with an illuminated head that automatically lights up when darkness falls.

To assemble the Marker Poles, it's advised to start at the lead end. Firstly clip your lead onto the split ring on the 100cm tube. Slowly start attaching the 100cm poles, ensuring that you position the line guards which cover each joint. This stops your line catching and ensures the poles can be left in place for the duration of your session. Once the pole is the required length to clear the surface of the water, screw the 20cm Reflective Stopper Tube onto the pole and push the LED Spot Marker into the top.

TRADE QUANTITY: 1

CODE	DESCRIPTION
AVPM/01	Illuminated Pole Markers
AVPM/02	100cm Tube
AVPM/03	50cm Tube
AVPM/04	25cm Tube

BOTTLE MARKERS

- Ultra-buoyant construction
- Finished in high visual colour
- Reflective section for night use
- Supplied with 12 purpose-designed beads

Designed specifically for boat work, these Bottle Markers allow anglers to keep their main line off the lake bottom between their rod tip and lead, ensuring that it sits above any snags or obstructions on the lake bed.

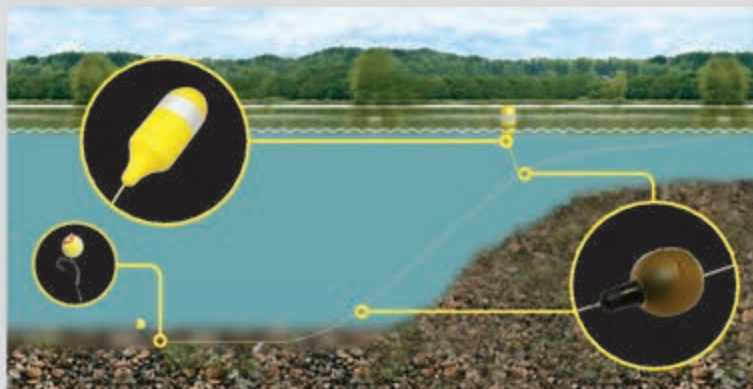

Before attaching your rig or leader, you need to attach two of the supplied Rubber Beads to your main line. As you drop your rig from the boat, one bead should be set a few feet above your rig and the other should be positioned a couple of feet over depth, to give the float a little bit of movement. Once you've dropped your rig into position, attach the Bottle Marker to your main line, between the two beads, using the clip on the elasticated section of the Marker.

With the Bottle Marker now on the surface of the lake, you can head back to the bank, safe in the knowledge your main line is going to be above any snags and out of harms way. When it comes to landing a fish, the beads will simply slide down your mainline, allowing you to land the carp without any problems.

2 PER PACK
